The show with its rich mix of forms, colours and styles emphasises how visual art from different cultures can come together and communicate a common theme even when the artists interpret the subject from a different perspective, ethnic background and age group.

In the selection of the works, Mrs. Bercovici has fused the individual expression technique and style of each artist together in a short but truly international art collaboration project.

The “**Symphony of Colors**” exhibition offers a unique opportunity for the British public to interact with the artists and view original works from 19 different countries.

Mrs Elizabeth Mitchell D’Anna
Director

It is my pleasure to organize the "Symphony of Colors"- International Contemporary Art Exhibition at La Galleria Pall Mall, London. The concept of the exhibition is based on the inspiration that the idea, "Symphony of Colors", stirs in each artist, his intellectual and emotional response to color, which has led him to the creation of his art work. Majestic London has been a cultural centre of art for hundreds of years.

Thirty well known artists will be honored to present their artworks here.

The exhibition has been organized to encourage a cultural dialogue, in the visual arts between different cultures.

Artists come from 19 countries:

Austria ,Belgium ,Germany ,Great Britain ,Finland, France ,Greece ,India ,Israel, Italy, Japan, Mexico ,New Zealand ,Norway ,Russia ,Serbia, Spain ,Switzerland, and U.S.A.

Gathered here are artists and their artworks, from different countries, origins and artistic backgrounds, to offer a formidable platform for the artists and an opportunity for art lovers, art dealers, curators and art collectors to view this exciting and multifaceted exhibition.

The art works showcased in the exhibition are created in a variety of techniques and materials. The many varied forms of communication conveyed in color, image and shape, allow the observer a rainbow experience.

These artists are represented in private collections and museums around the world. Art is a universal language that connects people from all over the world. Circles of art do not end in one country; they overlap and cover the world.

Artists exhibiting together are symbolizing their respect for each other and are an example of how to connect with love, with nature, and with what is happening in our world. I hope this exhibition will be the beginning of new friendships between different cultures. Finally, I should like to thank all the artists who have delivered the best of themselves for this exhibition.
